Preface

Preface

Dear Participants,

with great pleasure I welcome all attendees to our International Staff Training Week, dedicated to one of the most fascinating and discussed topics of our times: artificial intelligence. The title of our meeting, "Artificial Intelligence at the Universities - a boon or a bane?" serves not only as a provocative question but also as an invitation to a deep and multidimensional reflection on the directions of development and the impact of AI on the modern world.

As educators and researchers, we stand on the front lines of technological innovation, where AI continues to redefine the boundaries of knowledge and educational methodologies. Universities are not just adopters of this technology but are also key players in shaping its future trajectory through research, policy formulation, and curriculum development.

Our agenda is designed to provoke thought and inspire dialogue on how AI can be harnessed to enhance teaching, learning, and research, while also addressing the critical challenges and ethical concerns it presents. We are poised to discuss AI's implications for academic integrity, data privacy, the accessibility of education, and the potential displacement of traditional educational roles.

We have the privilege of hearing from distinguished speakers and experts who will share their insights and research findings. Through our discussions and exchanges, we hope to delineate the benefits AI can bring to our institutions while vigilantly mitigating its risks.

This event will serve as a unique platform for us to collaboratively forge paths forward in the integration of AI into higher education. I encourage each of you to engage actively, share your experiences, and contribute to the crafting of innovative strategies that ensure AI serves as a boon to our educational environments rather than a bane.

I encourage everyone to actively participate in the discussions, ask difficult questions, and share your perspectives. I am confident that our collective efforts will contribute to a deeper understanding of the opportunities and challenges posed by artificial intelligence and will help shape the future of education and research in this rapidly developing field.

I wish you fruitful proceedings and inspiring and educational conversations.

Sincerely,

Piotr Chwastyk

Vice-Rector for Cooperation and Development

University of Applied Sciences in Nysa

2

Algeria

Benghalem Boualem

University of Ain Temouchent, Algeria

Academic Background

Dr. Benghalem Boualem is a Senior Lecturer at the University of Ain Temouchent in Algeria. He works within the Department of Letters, Languages, and Social Sciences, specializing in English within the Department of Letters and English.

Interests

“I am interested in exploring how AI can be integrated into language learning and teaching methodologies. I am keen on collaborating with colleagues from various universities to explore the use of AI-driven language learning platforms, automated assessment tools, or AI-powered language tutoring systems. Additionally, I have a passion for leveraging AI to enhance educational experiences and improve learning

outcomes for students. My expertise in language education combined with an interest in AI presents exciting opportunities for scientific cooperation and innovation in the field of language pedagogy.”

3

Egypt

Alaa T. Mohamed Aly

South Valley University, Egypt

Academic Background

Faculty of commerce, Business Administration Department; Ph.D. Business Administration; Associate Professor of Business Administration; Head of Business Administration Department; Vice Dean of Postgraduate Studies and Research.

Interests

“My main scientific interests are to cooperate in establishing projects of undergraduate joint education programs between our two universities. In addition, we can start co-research projects in fields of research topics such as: Artificial intelligence and digitalization effect on academia. The psychological effect of digitalization on human resources of organizations. The role of human resource management in digital transformation. Organizational learning and change for sustainable development. University social responsibility in the digitalization era.”

Proposal of Cooperation

“Establish a joint degree, undergraduate programs in areas of interest between our two universities. Workshop about the future of Poland and Egypt academic and cultural cooperation. Discuss extending our cooperation to involve South Valley National University and UAS in NYSA. To organize a joint conference in Luxor or Hurghada city, Egypt.”

Ahmed Ezzat AbdAlRaof Mohamed

Ain Shams University, Egypt

Academic Background

Dr. Ahmed Ezzat AbdAlRaof Mohamed is a Lecturer in the Faculty of Computer and Information Sciences at Ain Shams University, located in Cairo, Egypt.

Interests

“The field of Machine Learning has always captivated my imagination. My passion for machine Learning began during my PhD studies in Computer Science, where I was introduced to the fundamental concepts of Machine Learning. My PhD thesis was about Migration and Replication in Multi-Tenant Environments using Machine Learning.”

Proposal of Cooperation

4

France

Éric Dinet

*Télécom Saint-Étienne - Université Jean Monnet,
France*

Academic Background

Éric Dinet is an Associate Professor at the University Jean Monnet.

- Machine vision, image processing and human vision
- Télécom Saint-Étienne (Engineering School)

Interests

“Scientific collaborations between different national and international teams, based on complementary areas of expertise and experimental resources as well as on different cultural approaches, are an effective way of achieving significant breakthroughs in research. Such a kind of partnership not only enable experience to be shared and progress to be driven towards a common goal of moving beyond current knowledge,

but also fosters bilateral exchanges of students and researchers and the co-supervision of PhD students.”

Justyna Karolina Kunicka Guerin

Catholic Institute de Toulouse, France

Academic Background

Justyna Karolina Kunicka has a Master in literature and Polish language (polonistyka), from the Gdansk University; a CAM diploma in Communication, by the Westminster College in London.

She is currently (since 2016) vice director and trainer at ESQESE (Management School specialized in Quality, HSE and CSR), part of the Catholic University of Toulouse, France.

Interests

“The impact of AI at University is an obviously unavoidable topic in which any school manager and teacher should be trained. Both regarding its positive potential, as concerning its risks, their prevention and management. I hope to be able to share the findings acquired during this week with my colleagues (deans,

directors, teachers, trainers), as well as with our students. Maybe organise workshops, awareness raising sessions etc.”

Proposal of Cooperation

“I hope to be able to run workshops and work on programmes concerning AI & University back in Toulouse at the ICT/ESQESE, following this Staff Week.”

6

Germany

Lukas Szepth

*Brandenburg University of Technology Cottbus–
Senftenberg, Germany*

Academic Background

He has held various roles in the field of language teaching. He has worked as an English and Spanish teacher at a language center, served as an academic with a university degree at Brandenburg University of Technology Cottbus-Senftenberg, and acted as a freelance language specialist. Additionally, he has served as Deputy Head of the Central Language Facility at the same academic institution. His early career involved working as a Language Assistant at Nailsea School.

Interests

“I am interested among other things in possible usages of AI in (language) test evaluation and / or fraud detection.”

Contact Information

Contact data:

7

India

Mohit Gupta

Ahmedabad University, India

Academic Background

Mohit Gupta is the Director of the CDC at Ahmedabad University.

Interests

“I have nearly 30 years of experience in the Corporate Business Administration spread across Information Technology, Telecom, Direct-to-Home and Consumer Products.

I am passionate about Teaching and Training, that lead to my foray in the Higher Education in the past decade. Adopting innovative methods and technology towards self-development and skill enhancement excites me and helps engage with young students to make them future ready.

In youth I was an outdoors person with active interest in Football and Hockey, besides Dramatics and Trekking. Over years I have gained interest and proficiency in Billiards and rudimentary Golf.”

Proposal of Cooperation

“Zoom seminar for students on Masters and PhD programs at the University of Applied Sciences, Poland, a Semester abroad exchanges for incoming and outgoing students of Ahmedabad University to UAS Poland and vice versa, Hosting faculty members for short teaching opportunities from UAS to Ahmedabad University, An online workshop by UAS on the opportunities offered by generative AI in teaching today; which could be conducted by Ahmedabad University's Office of International Affairs for interested faculty at Ahmedabad University”

Indonesia

Bambang Iskandriawan

Institut Teknologi Sepuluh Nopember, Indonesia

Academic Background

Porf. Iskandriawan is a Professor in Design Engineering, in the Institut Teknologi Sepuluh Nopember at the Department of Industrial Design Faculty of Creative Design and Business Digital. He's the Head Center of Excellence for Creative Design.

Interests

“My focus lies on Material & Process, Appliances Design, and Ergonomics. In particular, I examine areas such as Design Engineering works. These multidisciplinary aspects form the foundation of my teaching philosophy, aiming to equip students with a holistic understanding of design principles and their practical applications. My commitment to research and innovation is evident through various grants and projects I have led and contributed to. Besides teaching, my activities are research, writing articles and books, actively engaging in seminars and conferences as a speaker or participant, and guest lectures. I am passionate about

the prospect of scientific cooperation and knowledge exchange at the International Staff Week in Nysa. I suppose the power of collaborative learning to drive innovation and advance the field of industrial design. I look forward to engaging in discussions and the possibility of future collaborations with colleagues from anywhere.”

Proposal of Cooperation

There are prospects for collaboration in several capacities: Joint research, Guest lecturers, Joint publications, and Co-Supervisor for final projects.

Ellya Zulaikha

Institut Teknologi Sepuluh Nopember, Indonesia

Academic Background

Ellya is an Associate Professor in the Industrial Design Department at Institut Teknologi Sepuluh Nopember (ITS) in Surabaya, where she also serves as the Vice Dean of the Faculty of Creative Design and Digital Business. With more than 20 years background in academia and a passion for interdisciplinary research.

Interests

"I focus on Design Methodology, Creativity, and Design Research. In particular, I delve into areas such as Design Thinking, User Behavior, User Research, User Experience, and Participatory Design. These interdisciplinary aspects form the cornerstone of my teaching philosophy, aiming to equip students with a holistic understanding of design principles and their practical applications. I have integrated my findings and methodologies into the classroom, particularly focusing on a participatory approach to empower rural craftspeople.

By employing ethnographic design methods, I encourage students to understand motivations, culture, and relationships in design processes, fostering proactive behavior and innovative thinking."

Proposal of Cooperation

There are prospects for collaboration in several capacities: Joint research, Guest lecturers, Joint publications, Co-Supervisor for final projects, and the International Creabiz Week scheduled for November 2024 welcoming lecturers and researchers from around the world to share their insights and expertise with ITS students.

13

Portugal

Isabel Martins

University of Porto, Portugal

Academic Background

Isabel Martins has a Degree in Modern Languages and Literatures on Faculty of Arts of University of Porto. She is also an Instructional designer and trainer at Educational Innovation unit.

Interests

“In the Educational Innovation unit, I support teachers in implementing strategies for the pedagogical use of digital tools, as well as training to optimize the use of these tools, in particular the Moodle learning management platform and the Turnitin plagiarism prevention tool. In addition to online tutoring, I provide and create course designs for face-to-face and distance learning courses, in collaboration with teachers.

As a trainer, I organize various training courses in the field of educational technology, including

learning management systems, tutoring, plagiarism prevention and digital portfolios.

Throughout my professional career at the University, I have participated in national and international events in areas such as educational technologies, distance learning, lifelong learning and pedagogical innovation, in which I have also published. I also collaborate on national and international projects.

I like reading, traveling, trekking and cycling.”

Paulo Monteiro Alexandre

Polytechnic Institute of Setúbal, Portugal

Academic Background

Specialist Professor - Finance, Banking, and Insurance, in 2014, by the Polytechnic Institute of Setúbal.

A Master's Degree in Management and Industrial Strategy, in 2004 and Degree in Management in 1994, by the University of Lisbon.

Currently he's an Adjunct Professor at the Escola Superior de Ciências Empresariais and Dean in the Degree in Accounting and Finance.

More than 15 years of professional experience as a director in the banking industry (credit risk).

Interests

“My research interests are related to Finance. I'm interested in the subject of AI in many ways: Impact on education and how teachers should manage it with students; in research, in finance; and in general, the impact on the transformation of our society.”

Proposal of Cooperation

“IPS is planning the Erasmus Days (6 & 7 of June) and is working on the final program, information can be requested by email. The European Researchers Night is being prepared for 27 of September. We are open to participate in BIP upon proposition.”

João Lemos Nabais

Polytechnic Institute of Setúbal, Portugal

Academic Background

Hes is a professor at the Polytechnic Institute of Setúbal since 2003.

PhD in Mechanics Engineering at Instituto Superior Técnico, Portugal Instituto Politécnico de Setúbal (IPS), Business School. Obtained his PhD in 2013 with the dissertation “Modeling, Monitoring and Control of Transportation Networks – A Multi-Agent Flow Perspective” at IST. He is a collaborating member of the Associated Laboratory in Energy, Transport and Aeronautics.

Interests

“My research interests are related to Supply Chains Management, Logistics and Freight Transportation. I have a special interest in containerized transportation and synchromodality. Approaches to support a wise assignment of cargo over the transport network are a research topic, namely predictive and

optimization techniques. The use of AI for Educational practices in particular in terms of gathering information and evaluation tool.”

Proposal of Cooperation

Romania

Sorina-Mihaela Bălan

*“Dimitrie Cantemir” University of Târgu-Mureș,
Romania*

Academic Background

Ph. D. Sorina-Mihaela BĂLAN is an associated Prof. at the Faculty of Psychology and Educational Sciences at the “Dimitrie Cantemir” University of Târgu-Mureș, in which she also holds the position of Director of the Strategies, Programs and Projects Department.

Interests

Experienced Economics Teacher with a demonstrated history of working in the management consulting industry. Skilled in Entrepreneurship, Negotiation, Business Planning, Analytical Skills, Coaching, and Education. Strong education professional with a Doctor of Philosophy (Ph.D.) focused on Engineering and Management (Technical University of Cluj-Napoca.)

Proposal of Cooperation

“Planned conferences, Blended Intensive Programmes, workshops, other events. Erasmus+ projects Ka2, International Confereces, AI, Digital Education, Cybersecurity, ESTEAM, Conseiling and orientation, Good practices diseminations.”

USA

Rebecca Bryant Penrose

California State University, Bakersfield, The United States of America

Academic Background

She is a PhD candidate at Manchester Metropolitan University, UK, focusing on Library & Information Management. She has an MLIS from San Jose State University and an MA in English from California State University, Bakersfield, where she holds the position of Senior Assistant Librarian and Library Instruction Coordinator across all academic departments.

Interests

“My current doctoral studies involve the ways academic libraries use institutional research data to inform library programs and services. I am also researching the use of institutional data to inform student success initiatives and examining the overall effectiveness of the assessment tools. My other research interests involve disability studies, collaborative instructional strategies, educational technology, and instructional artificial intelligence.”

Proposal of Cooperation

“My proposal offered a presentation or workshop introducing participants to educational technology that uses artificial intelligence to facilitate instruction, detect plagiarism, guide student writing, and assist instructors with grading. I would be showcasing examples of projects and student assignments that incorporate AI-related websites and applications.”
