2. International Conference Proceedings

Following the conference, selected full-length papers that successfully pass the peer-review and editorial selection process will be considered for publication in an international conference proceedings volume with ISBN/ISSN and DOI. The proceedings are intended to be submitted for evaluation and possible inclusion in the Web of Science – Conference Proceedings Citation Index (CPCI).

Further details concerning the proceedings publisher, submission requirements and publication arrangements will be announced in due course.

Important: Inclusion of an abstract in the Conference Abstract Book does not constitute acceptance of the corresponding full paper for publication in the international proceedings. Both publication and possible indexing are subject to the applicable editorial, peer-review and evaluation procedures and cannot be guaranteed.
